We will work with you to make the start up process as painless as possible. For most practices it takes 1 to 3 months from when you sign our contract until you "go live". We work with you every step of the way to ensure a smooth transition. Whether you have decided that our standard or Individualized services best meet your needs, We are able to work with you to migrate existing patient demographics from most practice management systems.

INCREASE PROFITABILITY

When claims remain unpaid, you are working for free. You are the expert in the treatment of your patients and we are the experts in getting you paid for your valuable services. Hiring expert billers will pay for itself. You can spend more of your time doing what you do best and leave the rest to us. We keep up to date on the latest trends and technologies in medical billing leaving you free to focus on patient care.

PRICING

We have different pricing options under our standard plan: 4%, to 7%. Our pricing is based on how much you receive, on average per claim billed, as well as the size of your practice. Please note: this is the amount you receive, not the amount you bill out. Talk to us, or try our free price quote to see if you qualify for one of our standard low cost services.
